## **Safety and the Weather**

During our walks and courses, we are committed to considering the safety of the whole group, and may show more caution than individuals might when out walking on their own.

We will undertake continuous risk assessment throughout the day and may take the decision to change or modify walking plans at short notice. This most commonly occurs in bad weather conditions. We do lead walks and courses in all weathers, so long as it is safe to do so.

## **Protecting the Upland Environment**

We hope that you share our desire to protect the fragile upland environment in the areas where we walk, so that they can be enjoyed by generations to come. Our website describes [how we try to help protect the environment](#) and to support local communities and the rural economy. Also what you can do to help. You can also read about the [charities](#) that we support through corporate sponsorship.

Finally, we would like to draw your attention to the Countryside Code:

Respect:

- Be considerate to those living in, working in and enjoying the countryside
- Leave gates and property as you find them
- Do not block access to gateways or driveways when parking
- Be nice, say hello, share the space
- Follow local signs and keep to marked paths unless wider access is available

Protect:

- Take your litter home – leave no trace of your visit
- Do not light fires and only have BBQs where signs say you can
- Always keep dogs under control and in sight
- Dog poo – bag it and bin it – any public waste bin will do
- Care for nature – do not cause damage or disturbance

Enjoy:

- Check your route and local conditions
- Plan your adventure – know what to expect and what you can do
- Enjoy your visit, have fun, make a memory
